

1 to Mr. Clagett. I correct in reading both the staff
2 report and Mr. Eney's proposal as providing skeleton,
3 one is the skeleton that frightens me and one doesn't
4 bother me at all. Are they both skeletons?

5 MR. CLAGETT: Yes.

6 MR. SCANLAN: In voting on this, I'm not
7 choosing between the skeletons.

8 MR. CLAGETT: You have the skeleton as
9 opposed to no skeleton, and leaving it to the General
10 Assembly if the problem does arise.

11 THE CHAIRMAN: Mrs. Bothe.

12 MRS. BOTHE: I was wondering if the Committee
13 considered in its nonskeletal proposal at least restrict-
14 ing the number of regional governments that might be
15 permitted.

16 MR. CLAGETT: Yes, and actually we have done
17 that insofar as classification is concerned as well as
18 in discussion. Classification is limited to no more
19 than five, three counties within five. That ties in
20 with the limitation that we would feel would be applicable
21 to regional skeletons, no more than five.
