

1 which the Commission has responded to our appeals for  
2 meetings. I have a great hesitancy in telling you that we  
3 should have another two-day meeting in August, and yet it  
4 seems to me inevitable that we are going to have to have  
5 a two-day meeting in August and another one in September,  
6 if we are to get anywhere near meeting our schedule. On  
7 the other hand, it is, I think, obvious to all of you that  
8 a two-day session in August, if a third or half of our  
9 members are away on vacation, will accomplish nothing,  
10 because we will have to take all the votes over again.

11 I think that we have demonstrated by this meet-  
12 ing, with a practically perfect attendance, that we can  
13 make our decisions and we won't come back to them, but  
14 I don't think this happens when we have a substantial  
15 number of members absent.

16 Dick Case suggested that, I think first of all,  
17 that it is obvious to all of us that a two-day session,  
18 when we are all captives in one place and away from the  
19 demands of office and telephone, is highly desirable, and  
20 that therefore if we have such a session, it ought to  
21 again be at a place where we can all remain together
